

TELEGRAPHIC.

WINNIPEG, August 20.

The Serbian minister has resigned.
Col. Harris, the Czar of Georgia is dead.
A Toronto man has invented a bicycle skate.

Four men were drowned at St. John, N. B., on Sunday.
Thomas Pilling was drowned in the Asiniboia near Brandon.

A surveyor in Minnesota fell 60 feet from a balloon and was killed yesterday.

The first annual meet of the Winnipeg Bicycle club passed off very successfully.

The Vigilant did not compete in the race against the Britannia on Saturday as expected.

An English telegram says that the lowering of the U. S. customs tariff will benefit the trade of the whole world.

Hyslop was beaten by McCulloch the Winnipeg bicyclist, on the quarter mile race.

Isaac Humberston, of Calgary, met with an accident in a runaway yesterday which will probably prove fatal.

President Madill of the P. P. A. has declared himself. He says Sir John Thompson will be taught a lesson at the next election.

The Japanese are returning to the Flowery Kingdom from Europe and large numbers have arrived at New York en route.

The delegates to Montreal with a petition to the C. P. R. authorities to have Supt. Niblock of Medicine Hat removed from there, have returned home.

Japan's official declaration of war against China has been published. The constitutional reform party has issued a manifesto that it will not be content until the Japanese forces have reached the heart of China and the latter nation has acceded to every demand made by Japan.

LOCAL.

TRAIN ON TIME.

OATS in the Sturgeon district will be cut to-day. The crop is excellent.

The Koney Island Sporting Company of Edmonton is seeking incorporation.

The steamer Athabasca was to leave the Landing for Grand Rapids yesterday.

AFTER 250 feet boring at Alf. Brown's well, nine barrels of water have been struck.

The car load of 6 inch piping for the government exploring party at Athabasca Landing arrived last week and has gone north.

As Mr. Paradis can not be found, another search is being made on the Athabasca trail for the squaw who is said to have been seen there.

MR. MOORE, from Seattle, and a party of four, built a boat at Mr. Walter's last week and have gone mining about sixty miles up the river.

BROWN & CURRY's new store is being painted. The large figures 1880 signify that Edmonton business houses are not all of recent date.

HARVEST is now in full blast and the crop an average one. If the weather continues favorable it will be harvested in excellent condition and the samples will be good.

HARVEST Thansgiving services in connection with the Salvation Army will be held in their new barracks on Sept. 1st, 2nd and 3rd. The hall is to be decorated with the bountiful gifts of nature which will be auctioned off on Monday night.

REV. G. W. DEAN, leaves to-morrow on his way to attend the annual conference of the Methodist church. Next Sunday the Methodist pulpit will be occupied by H. A. Goodwin of South Edmonton. During the pastor's absence the pulpit will be filled by the following gentlemen: Mr. G. J. Blewitt, Sturgeon; Rev. Mr. Bowring, Wetaskiwin; Rev. Mr. Barker, Red Deer and Mr. Latam of Clearwater.

The regular open air concert discoursed by the Citizen's band, will take place in the band stand, as usual this evening. The following selections will be played.

March, "The Roaring Lion" Beebe.
Waltz, "Dream Memories" Bonheur.
March, "Pittsburgh Exposition" St. Clair.
Waltz, "Roses from the Ball" J. Dochee.
March, "Les Refrain des Vogues" Mullot.
March, "British Grenadiers" God Save the Queen.

THE new Salvation Army barracks on Queen's Ave. was opened on Saturday night with great eclat. Six recruits were enrolled into full membership, songs were sung, accordion and violin music combined to make all happy and a Norwegian song of fifteen verses interested all. The new building is neatly furnished inside; is an excellent sounding hall and is nicely decorated with inscriptions.

MR. CALDWELL and a party of miners from Washington Territory left by land with two boats yesterday for a trip of a hundred miles, or further, up the Saskatchewan. Mr. Caldwell is making the trip more for pleasure and sport than for business; but is anxious to test several leads from which he has seen specimens in the hope that rich discoveries may be made. He will return in about two weeks; but the others will mine along the river throughout the fall months. All of them are well pleased with the appearance of the country and will stay a few days at the Stony Plain settlement with the idea of looking up land for settlement.

MESSRS Hepler, Wise and Gross, who came in from South Dakota last week have made good use of their time in visiting the settlements at Beaver Lake, Egg Lake, St. Albert and other points. They return to South Dakota by to-morrow's train; but not for long. All have taken up homesteads in the Egg Lake district and confess to having had their eyes opened as to the fertility of this northern country. The fact of seeing green corn, ripe tomatoes, grain and grasses of all descriptions in abundance is a relief to them having come from a timberless and alkaline waste parched with continued drouth. They will probably bring 15 families back with them, we say probably because some of them will in all possibility not be able to leave.

THE Edmonton Separate School opens to-day.

280,000 lbs. of oak lumber arrived for Ross Bro's last week.

MESSRS Wooly & White have opened a blacksmith's shop at Ft. Saskatchewan.

A DANCE will be given by friends of Mr. and Mrs. Billeau at Robertson's Hall this evening.

A STABLE 16x18 withdrivingshed addition is the latest improvement to Mr. Roy's premises.

VERY few settlers came in on Monday's train. There were only nine, six of whom were from the United States. The balance were from British Columbia.

It is reported that T. Bennett, formerly of the Dominion Immigration department at Winnipeg has been appointed to a position in the Dominion Lands office here.

D. COLLINS, harness maker, transferred his harness business to E. F. Hutchings of Winnipeg last Friday morning. Mr. Collins will continue to manage the store.

MR. WM. YOUNG will open out at Fort Saskatchewan in the drug business this week. He will open out for Bole, Wynne & Co., of Winnipeg, who have taken over the stock of Geo. Thomson.

A cricket match between picked teams representative of the Old Country and Canada will be played on the race course next Saturday afternoon. In view of the severe defeat the Canadians received in their last match a much more formidable team will no doubt be placed upon the field.

EDMONTON has now a regular bus line to and from the station. Buses depart daily at 8 a. m. and 10:20 a. m. returning at 9 and 11:30 a. m. Somewhat similar intervals characterize the hours for departure and return in the afternoon and evenings. It is conducted by the Edmonton Bus Co.

SERVICE in connection with the R. C. church was held in Parrish's hall, South Edmonton yesterday. Services will be held on the South side every Sunday morning at 10 a. m. in future; but for the present it will be held in private houses. A church will be built as soon as circumstances will allow.

A BELL, weighing 1100 lbs., recently imported from France to replace one of the bells at St. Albert mission in the hope that its sound would be harmonious with the others has been found to be more discordant. The bell is exceedingly nice toned when used alone and has been presented by the bishop to the congregation of St. Joachim's.

WORK on the cellar of the new manse on Victoria St. begins to-day. The stone foundation will be 3ft. in height and 2ft thick. The edifice is to be 45x40, three stories, brick veneer with mansion roof. The contract has been let to Mr. Burke and is to be finished by October 16th. The inside will be completed by brothers of the order. The ground has been donated by the Bishop of St. Albert.

MR. E. C. CAMPBELL, representing E. F. Hutchings, harnessmakers, Winnipeg, arrived last week and will superintend the two harness stores running under the direction of that firm. Mr. Campbell will remain here three months, probably longer, and should business increase it is the intention of the firm to combine the two businesses and build a suitable brick block to carry on business in.

CAIT. BOYD, of Selkirk, N. B., arrived on Thursday and departed for the north on Saturday. He goes to build a steamboat for the missions on Lake Athabasca. A boat was built during the past winter; but was condemned by the government steamboat inspector on his recent trip as being dangerous for lake traffic though quite capable of doing river service. The distance to be travelled by this boat is about 600 miles. In winter the machinery is used by the mission for sawing lumber.

MISS MAXWELL and Miss Imandt, press representatives of the Dundee Courier, who are travelling round the globe in the interests of that paper, arrived on Thursday's train. They are travelling through Canada and are on their way east from the coast. While at Calgary they visited the Sarcee Indian-reserve and quite ranch. They have visited points of interest at St. Albert, Clover Bar, Ft. Saskatchewan and St. Edmonton; They leave to-morrow.

MR. SECORD has a dog, a genuine husky of the Esquimaux, which, since his arrival among civilization has learned to enjoy life by travelling in various parts of the country. When he gets tired of a town he waits for the train, boards the baggage car and gets off wherever he pleases. He is such an affectionate animal that all the trainmen know him. He is never refused a ride and is always a welcome passenger. He has been absent for four months, has visited Banff and various stations in British Columbia, and when last heard of was at Fort McLeod.

THE picnic of the Baptist Sunday School held in Groat's grove on Saturday last was a success in every respect. The day was fine and a large number of friends of the school, both old and young, assembled and had a very enjoyable time in the woods. Croquet, swinging, base ball, cherry picking, sight seeing, bathing, various games and tug-of-war were among the pastimes of the day. Two beautiful luncheons were served on the grounds. The grove is one of the most beautiful spots in the district for picnic purposes. The host, Mr. Groat, and family proved themselves most hospitable to the visitors and have their sincere thanks.

A RUNAWAY occurred near Mr. Fulton's on the Beaver Hill trail last Friday which fortunately was not of that serious nature that the circumstances surrounding it warranted its being. Mr. Calder, school inspector, was preparing to feed his horse and had taken the horse off to give it some oats. He was putting the halter on when the horse suddenly bolted, and both it and the rig dashed down the ravine, a distance of about seventy feet. When Mr. Calder got up to the ravine he espied his horse drinking in the creek at the bottom apparently very little hurt, while the buggy was not far distant and very little damaged. The wonder is that the horse was not killed and the rig smashed to atoms. The horse could not be persuaded to go near the rig again.

MRS. H. YOUNG returned from Athabasca Landing on Saturday.

THE Ladies Guild of Holy Trinity church South Edmonton, will give a promenade concert in Parrish's hall on Friday evening at 8 o'clock.

A DANCE will be given by friends of Mr. and Mrs. Billeau at Robertson's Hall this evening.

THE B. Y. P. U. will hold a conquest meeting on Sunday evening next at 7:30. Subject, "Trials and triumphs in new England and the Middle States."

Two half-breeds named Coutrais and Lennie appear before Inspector Snyder this afternoon to answer to a charge of stealing a buckboard and taking it to South Edmonton.

ALL the papers and office appurtenances in connection with the Registry office here were moved into the new brick Registry office on Friday where business henceforth will be conducted.

THE police have returned from investigating the report circulated by an Indian to the effect that Mr. Guillion had been killed on the Athabasca trail and find that there was not the slightest ground for the rumour. The man is perfectly well.

THE sparring match between Ed. Cuff and J. Kelly has been withdrawn owing to Mr. Kelly's arm being so out of condition that it is not likely to be well before Sept. 1st. There is a possibility of the contest being deferred until the Calgary fall races.

MR. ROBERT, of Wetaskiwin, who has lately returned from a six months trip to Belgium, has been commissioned by La Patrie and Le Movement of Brussels to take views of the Edmonton district and write letters descriptive of the country. He is in town to-day.

THE Board of Trade has received a communication from the Fraser Valley Relief committee stating that following upon the exaggerated reports, other reports of failure have been circulated which undulate the distress among the sufferers of the Fraser Valley Floods and they therefore feel called upon to ask for assistance.

THE crops in the Edmonton district this year are excellent. Wheat will be better than last year and oats and barley first-class in quality, but not quite so heavy as last harvest. There are no reports of 125 bushels to the acre as there were last year; but on new ground there are some heavy crops. Hay is abundant and able to supply all home demand, leaving some for export.

DR. SELWYN, F. R. G. S. director of the geological survey of Canada, arrived from Athabasca Landing this morning, with Mayor McCauley, at about 10:30 a. m. Dr. Selwyn has been superintending the preliminaries in connection with the government's exploration for coal oil in the Athabasca region. The place of operation is about 2 miles from the Landing and when the Dr. left the drill was about 55 feet down. They expect to strike oil between 1500 and 2000 feet which will take about two months. They need extra piping before going further. It will most probably be there to-night. Dr. Selwyn leaves for South Edmonton to-night and departs in the morning for Ottawa.

NEW ADVERTISEMENTS.

WANTED.
A qualified teacher for the Victoria Public School. Salary \$500. Duties to commence at once. Address applications with testimonials to

FRANK OLIVER. — PROPRIETOR.

EDMONTON BULLETIN, AUGUST 26TH, 1894.

NOTICE.

During my absence at Regina the editorial management will be in the hands of J. B. Spurr. Accounts may be paid to A. H. Haines, foreman, at the office, or A. McNicol, accountant, Imperial Bank block, who are authorized to receipt for the same. Orders for subscriptions, printing and advertising will be taken at the office as usual and promptly attended to.

FRANK OLIVER.

NORTHWEST ASSEMBLY.

REGINA, August 8th.

A petition was presented by Mr. Lincham from the Trust Company of Canada.

Mr. Lincham moved the first reading of a bill to amend the fence ordinance by providing that south of township 30, a wire fence might have 50 feet between posts instead of 35, with seven droppers.

Haultain's bill to amend the law respecting slander was read a second time. He explained that a broad distinction was drawn in law between written and spoken slander. In the case of a written slander no actual damages need be shown by the complainant in order to secure a verdict. But in the case of merely spoken slander actual damage must be shown. It would be generally agreed that in the case dealt with by the bill, namely slander on the reputation of a woman, it should not be necessary to prove actual damages in order to secure the punishment of the slanderer. This was the object of the bill, and the only provisions it contained. Second reading agreed to.

The bill to provide that the registration of chattel mortgages need only be renewed every two years instead of every year as at present was considered in committee, of the whole.

Oliver asked an explanation of the reasons for the change.

Haultain replied that it was proposed with a view to greater convenience; that no important principle was involved and that the present term of one year was exceptionally short being from two to five years in other provinces and countries.

Oliver said he did not question the greater convenience of the proposed change to mortgages, but registration was not required for their benefit or protection but for that of the public. If the introducer of the bill had examined the matter carefully and could assure the house that the public interest would not suffer by the change made for the convenience of mortgages he would make no objection to the bill going out of committee.

Mr. Haultain asked that the bill remain in committee.

The bill to amend the brand ordinance by abolishing the brand committee as having become unnecessary was considered and allowed to remain in committee.

THURSDAY, August 9th.

Oliver presented petitions asking for prohibition of the liquor traffic from Moose Jaw and Wolseley councils of the Royal Templars of Temperance.

Insinger asked the executive committee how many meetings of the veterinary profession of the Northwest Territories incorporated under ordinance No. 11 of 1892 had been held; and Mr. Neff answered, how? He also asked how many persons have been registered under the provisions of that ordinance; and was answered that none had been registered but that all who were in active practice at the time of the passing of the ordinance were held to be registered.

Wilkin's bill to regulate traffic on public bridges in the Northwest Territories was read a first time. This bill provides against fast driving over bridges beyond a certain length and also against driving large bands of cattle or horses over such bridges.

Prince moved for a return showing (1) The names of the appointed members representing respectively the Protestant and the Roman Catholics in the Council of Public Instruction; the date or dates of their appointments; whether any of such Members have resigned, and if so, date of such resignation, and whether the same have been replaced, with name and date of such appointments.

(2) The Minutes of all meetings of the Council of Public Instruction at which the appointed members were asked to be present, with names of all members present.

(2) The dates of all meetings of the Council of Public Instruction, at which the Members of the Executive Committee only were present.

(4) The copies of all regulations passed by the Council of Public Instruction and the dates at which they were passed, since the passing of the School Ordinance of 1892 to the present date.

In speaking to the motion the mover said that he believed it was the general desire of the country to know more about the working of the school law which had been in force since 1892; about its administration and about its cost. He asked Mr. Haultain if the members of the house would have the privilege of access to all the minutes of the meeting of the council of public instruction, in which case he would not need to ask for their being included in the return asked.

Mr. Haultain replied that every facility for securing information would be afforded the members.

The motion for the return passed.

James Christie, a rancher, was found dead on the trail north of Calgary on Friday last. The track of a buggy wheel into a gopher hole was seen where he was found. Deceased was 65; sober, industrious and unmarried.

A young lady while seated in a dingy on Hamilton Bay on Monday, was told that her dress was dragging in the water. To save the garment from a wetting she at once stood up and the boat just as promptly went over, and the consequence was the loss of a valuable life.

THE RUSSIAN THISTLE.

The Russian thistle has made its appearance in Manitoba where it was probably brought in by threshing machines from Dakota. In some parts of South Dakota it has become so great a pest as to drive men off their farms. Mr. Gross and other late settlers from South Dakota say that reports as to its destructiveness are not at all exaggerated. The Russian thistle is not like the Scotch or Canadian thistle and in its young state does not suggest to the farmer anything of its final form and harmfulness. It is then a soft smooth innocent looking plant with narrow fleshy leaves an inch long which sheep will eat readily. Well grown specimens are from two to three feet in diameter, but where crowded together they may be much less. Each twig and branch is covered on all sides by hard, stout prickles, which are very sharp and very irritating to the touch. The prickles are in threes, that is, there are three together in a place and pointing in different directions. At the upper side of the base of each three prickles there is a seed, and as there are about ten of these to each inch it is easily seen that the seeds produced by every well-grown plant must reach a great many thousands. The plant is almost spherical in shape and when ripe, a heavy windstorm draws the root out of the ground and the whole plant bounds over the prairie as fast as the wind can carry it, dropping its seeds wherever it goes. It is armed with spines quite as sharp and much stronger than those of the common thistle. Because of these it is difficult to drive horses through a field where the plants are abundant. In some sections the farmers find it necessary to bind leather about the horses' legs while at work. Horses running in the pasture are often injured by having the skin on their legs badly lacerated. The spines breaking off under the skin cause festering sores. Hunters find difficulty in getting their dogs to work well for prairie chickens in the stubble, and the dogs are sometimes injured by the sharp spines. Threshers find it almost impossible to get gloves thick enough to keep the spines out of their fingers, yet thin enough to work with.

THE Northwest Legislative Assembly are bringing in a bill to prevent noxious weeds and this dreaded pest will be dealt with. Agricultural societies are recommended to acquaint their members with a knowledge of the plant by having specimens (in glass cases) for observation. The Manitoba government is taking radical steps to dislodge the pest.

Main Street, Edmonton.

FARMING IN CANADA.

Mr. George Leary, well known in Manitoba, now Dominion Immigration Agent in Ireland, has contributed a series of articles on "Farming in Western Canada" to the Irish Farming World. The following is a portion of the last of the series.

Dairying is just now exciting much interest throughout Manitoba and the Territories, and the Dominion government has wisely sent out dairy instructors with the best class of machinery to give practical lessons in the most important branch of farming. Here is another instance of the survival of the fittest, in the fact that the rich bunch grass which fattened untold millions of buffalo in ages past, and which now performs the same service for the Scotchmen of the rancher, will in the turn of events go to the building up of great dairy interests. At present from Regina westward, beyond Calgary to the foothills of the Rocky mountains, a distance of at least 500 miles the country is largely given up to cattle ranching, and but little effort is made in the product of butter or cheese, the rancher satisfying himself with the prices obtained in his yard from the shipper; but as the seasons roll it is becoming more and more evident that turning bunch grass into dairy products is more profitable than turning it into beef, when the long and expensive haul to market as well as the almost restrictive legislation of the Imperial parliament are considered. In Manitoba for some years back the output of butter has been considerable, and where care has been taken in its production it takes second place to neither the best Irish or Danish, but even there its manufacture is capable of vast improvement and extension.

Little has been done as yet in cheese for export, although local factories are to be found occasionally turning out an excellent article, commanding ready sale in the home market and at profitable prices; but this industry has all its future before it, and is likely to be prosecuted with energy within the next few years. Following dairy farming pork raising is a natural sequence, and this has always proved a reliable source of income when intelligently and systematically prosecuted. Manitoba and the Territories have never yet produced enough pork to meet the local demand, and it is no unusual sight to see carloads of pork from the eastern provinces and hundreds of barrels of nasty, greasy western mess from the United States being sold to the farmers during the summer season. Yet no country can produce pork at so low a figure, and the margin between cost and selling price is always sufficiently wide to offer great inducements to any man to put his money in pork.

Poultry raising will always be a profitable branch, and no great intellectual ability is necessary to make this one of the most attractive features of the farm. The Manitoba hen has under adverse circumstances done her duty nobly in the past, and has often had to submit to insult in being kicked out of stables and being compelled in indifferent weather to roost out of doors. But her patience and untiring industry have at last been recognized, and poultry raising is becoming general, and whenever any attention is given most satisfactory returns follow. These, with about forty acres of cultivated land, all come within the scope of moderate capital, and promise a prosperous future to those engaging in farming; but just as eternal vigilance is necessary to complete success in other walks of life, it is equally imperative in farming, and although nature has bestowed her gifts with lavish hand, yet patience and industry are required to reap a full reward. With these no man need fear the future on the rich fields of Western Canada.

GENERAL NEWS.

MONTREAL, Aug. 10.—The C.P.R. traffic for the week ending Aug. 7 amounted to \$339,000; for the same week last year the earnings were \$419,000.

The Great Northwest Central railway report that crops along their line are the heaviest ever grown. Oats are very heavy and the wheat is a good sample.

In the new Ontario Legislature, barring protests, the members are divided as to occupations as follows: Farmers, 43; lawyers, 18; merchants, 9; doctors, 6; lumbermen, 7; journalists, 5; cattle drover, miner, marble worker, banker, foundryman, tanner, one each.

Twenty years ago, William Gibson, M. P., who accompanies Laurier to the Northwest, landed in Canada, bringing with him a good constitution, a Scotch accent and little else. Mr. Gibson still retains his rugged health and his native accent, but his genius has coined wealth out of the opportunities open to industry in Canada.—Toronto Telegram.

A lawsuit of a peculiar nature is soon to be tried in London, Ont., between two London township farmers. It appears a man named McRoberts was sadly pestered with grasshoppers, and with the aid of several neighbors, with tin pans, wires and brush, drove the whole horde on to his neighbor's grain, to the complete demolition of the latter's crop. This neighbor now brings an action against McRoberts for damages caused by the grasshopper raid.

The value of settlers' effects brought into Canada from the United States in 1893 was \$1,690,000. The value of like articles brought in from Great Britain was only \$311,000. Doubtless the settler from the United States would bring with him more goods and of greater value, than one from across the ocean. But the fact that so large a quantity of settlers' effects came from the United States last year is a fair index of what may be looked for in years to come, when the advantages of the North-west in climatic conditions, fertility of soil and facilities of transportation are more fully understood.

DENVER, Col., Aug. 9.—T. C. Henry, of the Colorado Land and Emigration Company, has just returned from central and western Kansas. To a press representative he said: "Many counties in the western third of the State of Kansas have already lost four-fifths of their population, and in some counties organization cannot be maintained. The condition of the people is appalling in many districts. I saw hundreds of teams going eastward with loads of household goods thrown hastily into hay wagons. The condition as compared with former droughts in Kansas is without a parallel. Heretofore the farmers have been able to procure loans on their farms to make up the shortage in crops, but now they have no equities left, and if they had the loan companies will not let out a dollar on Kansas property. There is no new corn, no

vegetables, little stock, horses are worth nothing, and in the central counties, where there is a little wheat crop, wheat is worth but thirty-two cents a bushel. The people are literally impoverished and the business men in doubt, the same as the farmers. Up to three weeks ago there were the finest prospects for a good corn crop. It was almost made, and farmers obtained credit on the strength of it. Three days of hot winds burned it up and now they have no possible chance to pay."

MONTREAL, Aug. 13.—The Windsor station of the C. P. R. was crowded last night with 300 Scandinavian immigrants brought to Halifax on Saturday by the new Scandia line and en route for the Northwest and northwestern states. Two hundred left for their destination this morning and the other hundred left on a special in the afternoon. They are about the best crowd of immigrants seen around this summer, are all well dressed and are well supplied with money.

Mr. D. Smith, inspector of Dominion public works, returned on Sunday from a trip as far as Banff. Speaking of the progress made on Dominion structures, he said that the Calgary post office, custom house, etc., building was receiving the inside fittings, and would be ready for occupation in three weeks; the new court house at Regina would be finished Oct. 1st; the new court house at Weyburn would be ready by Nov. 1st, and the Brandon Industrial school was nearly finished. The government have not yet taken action on Mr. Smith's report on the new post office for Portage la Prairie, which he sent down recently.—Free Press.

Some boys playing near the old Fort Garry gate, Winnipeg, recently, unearthed a tin box about a foot square containing leaden bullets about the size of good sized marbles. They were in as good condition in every way as on the day when they were hid away, being clean and bright as black lead. Unfortunately the boys emptied out the bullets into a pail and threw the box away. Search is however, being made for it, and it together with a number of the bullets will be placed in the hands of the Historical Society. It is supposed to be a relic of the struggle between the Northwest trading company and the Hudson Bay company.

The London correspondent says:—Although cholera is running its savage course in St. Petersburg and spreading slowly through the Russian provinces and even into Finland, has made its appearance on the German and Austrian frontiers, while it is apparently established in both Poland and Belgium, there is this year a complete absence of interest in its progress. The new agencies do not take the trouble to issue regular Bulletins about the epidemic's ravages, and the newspapers only now and then print it. The mortality ratio this year is said to be double what it was last year.

Montreal Star: Reil's pipe, which has been on exhibition in the Star window for the past few days, will bring back to the minds of many of our volunteers vivid reminiscences of the Northwest rebellion, in the quelling of which they took a hand. The pipe in itself is of unpretentious appearance, although on close examination it shows no mean skill in carving. The stag's head in the centre with a hound on each side conveys the idea ever uppermost in the mind of the noble red man. His great earthly glory from time immemorial has been hunting, and his hope in the future is to be blessed with a happy hunting ground over which he can roam at will. Hence the suggesting of the symbol on the pipe, which is said to have been highly prized by Reil on account of the associations connected with the presentation of the pipe to the acknowledged leader of the Northwest Indians. There is nothing of the "calumet of peace" about this pipe, for it was presented to Reil (so the story goes) as a pledge of fidelity on the part of a tribe of Indians to fight for him to the death. This probably accounts for the importance Reil attached to the pipe.

Northwest Brewery

EDMONTON, ALTA.

DRAUGHT ALE,
BOTTLED ALE,
& EXTRA STOUT.

We carry a stock to fill any demand. Orders promptly attended to at the Brewery, near the Electric Light Station, Edmonton.

T. CAIRNS, Proprietor.

Columbia—A. Dorais, Fort Saskatchewan; S. H. Johnson, Sandy Lake; C. Gerrard, St. Albert; C. Wolf, Birch Creek.

AT THE TRAPS.

The fall tournament of the Edmonton Rod and Gun club took place on the race course last Saturday afternoon and was well attended by members of the club and district sportsmen. The weather was all that could be desired and the shooting up to the average. The winners of the first and second prizes in the first two events were handicapped in the next two events by two yards. The following were the events with their respective scores:

First event, 15 single birds: J. Martin, 11; J. Carpenter, 10; C. D. T. Becher, 8; H. Spratt, 7; W. Pierce, 6; T. Chalmers, 5; F. Sacke, 4; J. Turnbull, 4; D. McInnis, 3; The first three were the winners.

Second event, 6 double and 6 singles. Doubles: T. Chalmers, 5; J. Carpenter, 3; C. Becher, 3; J. Martin, 2; D. McInnis, 2; J. Turnbull, 2; H. Spratt, 2; F. Sacke, 2; T. Becher, 2; J. Turnbull, 4; D. McInnis, 3; H. Spratt, 3; Chalmers, 2; Carpenter, 2. Totals, Becher, Chalmers and Sacke 7 each, Martin and Turnbull 6 each, D. McInnis, Carpenter and Spratt 5. The three first then shot off for 1st, 2nd and 3rd places which resulted as follows:

C. D. T. Becher, 0 11111 1st.
T. Chalmers, 0 11111 2nd.
F. Sacke, 0 10 3rd.

Third event, 6 singles, unknown angles. W. Pierce, 6; J. Turnbull, 4; D. McInnis, 3; J. Spratt, 3; C. D. T. Becher, 2; T. W. Chalmers, 2; J. Carpenter, 2; F. Sacke, 2; J. Martin, 1. In this event W. Pierce made the possible. Turnbull won 2nd and McInnis and Spratt were even for third place. Carpenter, Martin Becher and Chalmers were handicapped 2 yards.

Fourth event, 12 single birds. Pierce 8; McInnis 8; Martin 8; Becher 7; Chalmers 6; Spratt 6; Carpenter 3; Turnbull 2. On the three first shooting off for prizes they were awarded in the following order: Martin 1st, Pierce 2nd, McInnis 3rd. In this match all were handicapped except Spratt and McInnis.

Fifth event, Team shoot 4 single birds each. Team 1, J. Martin captain, J. Turnbull 1st, D. McInnis 2; Chalmers 1; Sacke 2; St. G. Jellet 2; Martin 1.—9.

Team 2, C. Becher captain. W. Pierce 1; J. Carpenter 2; J. Spratt 1; H. Robertson 3; J. Looby 1; C. D. T. Becher 4.—12.

FORT SASKATCHEWAN ALBERTA.

The item in the "BULLETIN" of the 13th inst., re the excitement in British Columbia over the building of the British Pacific Railway through the Saskatchewan valley via the Jasper Pass, brings back to the writer the following particulars in connection with it. If the Canadian Pacific Railway had built through it instead of their present route via the kicking Horse Pass, they would have saved several hundred thousand dollars in construction and also maintenance. The greatest grade in the mountains being one per cent instead of four per cent, the distance would have been about 80 miles longer, but on the other hand, owing to the great difference in the grade, they could have gained one day in time, and the same engine that handled a train over the prairie could go right through the mountains with its full load, instead of doing as at present, change to a larger engine to do so.

The C. P. R. would have also had by this time, a splendid local traffic for a distance of at least 800 miles from the mountains, east, instead of doing next to nothing, locally, as far as freight is concerned, at present. It is not saying too much that the Territories would have also benefited to the extent of at least 50,000 of a population had the Saskatchewan valley route been chosen in 1882 instead of the present one.

To assist the Canadian Pacific Railway (and with a love which passeth all understanding) to rectify the error made in 1882, the Dominion government have given it all the good vacant land in the Saskatchewan valley, so that the British Pacific Railway or any other road cannot be built without buying the right of way, and if they did buy the right of way, have no railway grant of land of its own along the traversed route. Never has there been a more outrageous piece of legislative folly perpetrated by the Dominion House, and it is growing more apparent and galling every day. Our population is growing, we have every hope of hearing daily of the finding of petroleum in immense quantities, gold quartz of a valuable nature has also just been discovered near the eastern slope of the Jasper Pass. Mineralogists assure the writer that there is no doubt of other valuable minerals existing in our district. No other portion of the Canadian Northwest has the same natural facilities for farming and ranching, and yet with all our advantages there is any province in the Dominion so unfortunately handicapped for future railway service? "Allah" is great and so is the C. P. R. when so ably assisted.

The crops are turning out good, but the weather not quite as it should be for harvesting.

16th August 1894.

Dr. J. G. Calder, of Medicine Hat, who is in Montreal just now as one of the deputations to wait upon the officials of the Canadian Pacific railway on behalf of the citizens of Medicine Hat, on his return to his home in the Northwest proceeds on an interesting prospecting expedition. The party starts from Calgary and is to thoroughly explore Battle Creek from its mouth to the Cypress Hills, where the Indians have always had traditions of immense gold mines of unusual productiveness. A great deal of attention has been paid by the people of Alberta and Western Assiniboia to prospecting for gold, and a great deal of gold is being extracted from the sand bars in the Saskatchewan, in the vicinity of Medicine Hat.—Montreal Star.

China has so large a population that if 1,000 Chinese should be killed every day it would take Japan 1,500 years to finish them.

WINNIPEG, Aug. 14th.—Hon. Mr. Daly, minister of the interior, will arrive in the city this morning from Ottawa. He is not likely to make a lengthy stay in the city, but will proceed west without delay. He will visit principal points in Manitoba and the Territories and British Columbia on business connected with his department.

A Russian scientist, who claims to have thoroughly investigated the source of natural gas, advances the theory that it is produced by salt water coming in contact with the molten carbides in the earth's interior. It is reported that he has proved the correctness of his assertion to some extent by subjecting salt water to the conditions mentioned, and producing a gas which could not be distinguished from the natural article. Should this report be true, there is not much danger of natural gas exhausting itself, as the moist condition of the earth should always furnish the source of a continuous supply.

Beginning on September 6th the quadrennial session of the general conference of the Methodist church will be held in London, Ont. The list of the clerical and lay delegates who were elected by the Manitoba and Northwest annual conference is as follows: Ministers—A. W. Ross, Portage la Prairie; J. W. Sparling, D. D. Winnipeg; John Seumens, Winnipeg; J. Woodsworth, Brandon; John McDougall, Morley; G. W. Dean, Edmonton; John McLean, Ph. D., Port Arthur; A. Stewart, B. D., Winnipeg; Thomas Argue, Winnipeg. Reserves, A. Andrews, Minnedosa; F. Lawson, Cypress River.

In April the decline in the immigration to Canada from Great Britain was 59 per cent, as compared with the month of 1893, and in May 60 per cent., so in June the decline was from 7,044 to 2,829, or 64 per cent. Thus, looking at the six months, we find that the departures from British ports to Canada numbered 12,846 as against 35,273 in the first half of 1893, or a decline of 62 per cent. No other country receiving European emigrants shows quite so large a decrease.

In all, 96,377 emigrants left British ports during the past six months, and that represents a falling away of 47 per cent. Of these 65,033 went to the United States, a decrease of 48 per cent.; 4,376 to Australasia, a decrease of 11 per cent.; 7,789 to the Cape of Good Hope and Natal, an increase of 18 per cent.; and 6,335 to "other places," a decrease of 16 per cent. South Africa alone has secured more emigrants than last year, a fact due to the attractions of the country opened up in the interior of the African continent. Australasia comes next, with a decline of only 11 per cent., and here again gold discoveries have no doubt had their influence; the United States is third, with a decline of 48 per cent.; and Canada last, with a decline of 62 per cent. It is idle to shut one's eyes to the significance of the figures.

METEOROLOGICAL.

The following temperatures are reported from the Dominion government observatory, Edmonton, for the dates given:

	Max.	Min.
Thursday, 16,	77	53
Friday, 17,	81	53
Saturday, 18,	84	56
Sunday, 19,	83	48
Monday, 20,	80	50

Barometer reduced to sea level 29.852.

House and Lot for sale. Apply to WM. EASTON, Contractor.

TENDERS WANTED.

Tenders will be received by the undersigned up to 6 p.m. on Saturday, August 25th, for the erection of a brick school house in South Edmonton. Plans and specifications to be seen at the secretary's store. Parties tendering will be required to make a deposit of two per cent. of the cost of construction, which will be returned if tender is not accepted. The lowest or any tender not necessarily accepted.

H. B. HORTON, Sec. School Board.

Dated this 15th day of August, 1894. 83-85

NEW HARNESS SHOP.

Messrs. Carson & Shore have opened up business in Edmonton with Mr. Isaac Sanders as manager. Anything wanted in their line will be sold at the very lowest prices and satisfaction guaranteed. They also have a store in South Edmonton, managed by Mr. Byres.

51-57

ESTRAY.

One sorrel stallion, past three years old, branded 23 on left shoulder, white left hind foot, and a white star on forehead. The owner is requested to prove property, pay expenses and take away from Sec. 20 Tp. 35, R. 24, three miles north of Edmonton.

52-57 MALCOLM GILBERTAITH.

MILCH COWS FOR SALE.

A herd of well broken milch cows and heifers, good grades, chiefly from the herd of William Mitchell, of Duck Lake, Saskatchewan, will arrive in Edmonton about August 25th. Will be offered for sale cheap. Parties desiring to secure good milch cows will find that they can buy to advantage from G. E. Carter who is in charge of the herd.

51-56

LAST.

A small boy, aged 11 years, named Pere Coley, of French, reddish face, wearing a light cotton shirt and blue duck pants, disappeared from his home near Fort Saskatchewan about a month ago. He speaks French. Any information as to his whereabouts will be received at this office.

50-55 MAGGIE MCNEILL, Sturgeon River, N. B.

LAST.

A dark bay mare pinto brand on left hip, small star in forehead, and small white spot on inside of left front foot close to hoof, had new black leather halter on when last seen. A suitable reward will be given for information that will lead to her recovery.

50-55 MAGGIE MCNEILL, Sturgeon River, N. B.

TO BUSINESS MEN.

JELLET & CAMPBELL, Accountants and Bookkeepers, are prepared to make collections at reasonable rates. Satisfaction guaranteed. Work solicited. Sift

HOMESTEAD REGULATIONS.

All even numbered sections excepting 8 and 26 are open for homestead entry (160 acres) by any person sole head of a family, or any male over the age of 18 years.

ENTRY.

Entry may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires he may, on application to the Minister of the Interior, Ottawa, or the Commissioner of Dominion Lands, Winnipeg, receive authority for some one to be named by the intending settler near the local office to make the entry for him. Entry fee \$10, or if cancelled land \$20.

DUTIES.

Under the present law homestead duties may be performed in three ways, to be decided on making entry:

1. Three years' cultivation and residence, during which period the settler may not be absent for more than six months in any one year without forfeiting the entry.

APPLICATION FOR PATENT

may be made before the local agent, or any homestead inspector.

Six Months' Notice Must be Given in Writing to the Commissioner of Dominion Lands by a Settler of his Intention Prior to Making Application for Patent.

PRE-EMPTIONS are by law abolished, and may not be entered for after 1st January, 1890.

A Second Homestead, may be taken by anyone who has performed the duties to entitle him to a certificate of recommendation for the first homestead on or prior to the second day of June, 1890.

Forfeited or cancelled Pre-Emptions may be taken as second homesteads.

All communications having reference to lands under control of the Dominion Government, lying between the eastern boundary of Manitoba and the Pacific Coast should be addressed to:

H. H. SMITH, Commissioner of Dominion Lands, Winnipeg.

MAIL TIME.

The mail arrives at Edmonton from the South on Monday and Thursday evenings at about 7:30 o'clock. Box holders may get their mail the same night.

The general delivery opens at 8 a.m. on Tuesday and Friday mornings.

Mails leave for outlying points as follows: Clover Bar, Agriola, Fort Saskatchewan and St. Albert, Monday and Thursday evenings after arrival of mail from south.

Morinville, Nemo, and New Lannon goes on from St. Albert on Tuesday's only.

Pakan and Saddle Lake leaves Fort Saskatchewan every alternate Wednesday counting from Jan. 3rd 1894.

Beaver Lake and Logan leaves Fort Saskatchewan on the first Wednesday in each month.

Stony Plain every Friday morning at 9 o'clock. South Edmonton and Leduc Monday and Thursday evenings at 7 o'clock.

The mail for the south closes for registered matter on Mondays and Thursdays at 7 p.m. but ordinary mail is received until a later hour.

Mails are also made up at Edmonton for South Edmonton, Wetaskiwin, Lacombe, Wagon, Red Deer, Innisfail, Bowdon and Olds on the C. & E. line. The mail for Holbrook is made up in Calgary.

Duhamel, Angus Ridge and Lewisville mails are made up at Wetaskiwin.

Lamartine mail is made up at Lacombe.

Mail arrives at Edmonton from Fort Saskatchewan, Clover Bar and St. Albert at 7 p.m. on Mondays and Thursdays. From Morinville, Nemo and New Lannon at 6:30 on Tuesdays only. Stony Plain on Thursdays only at 6 p.m. Pakan and Saddle Lake on alternate Thursdays commencing Jan 4th 1894. Beaver Lake and Logan on the first Thursday in each month.
